## TESTING AND TRAINING CAPABILITIES INCLUDE:

- Small arms
- Sights and optics
- Shoulder fired munitions
- Anti-defilade munitions
- Sensors
- Robotics
- Combat vehicles
- Ballistic panels
- New explosive effectiveness
- New explosive initiation systems
- Grenades

# CQT Michigan Facility

CQT was designed and built to become the premier training facility for law enforcement agencies and the military. Our MCOLES approved training program is designed to prepare the officer or agent to handle the majority of situations they may encounter while on duty. Our facilities can accommodate department or agencies of any size and on duty shifts. We are available 24/7.

## The Michigan Training Facility:

- 40,000 sq. ft. Indoor Training Facility
- 2 Story live fire ballistic shoot house
- Simulation force on force area
- 14 Lane tactical firearms range
- VirTra 300 simulator
- 2 V-Range single screen simulators
- Defensive tactics room
- Fast rope station

# Indoor Shoot House

The CQT shoot house is designed and built by Action Target out of Provo, Utah and is a two-story, live fire, 360 degree, ballistic house. It contains three resettable breach doors as well as rooftop and alternative breach points.

This range is designed to meet the needs of highly trained and advanced law enforcement and military units as well as trained, private individuals

# Force On Force

The Force on Force Training Area Street Scape is capable of bringing in cars or buses, and has multiple one and two story buildings. The entire arena is reconfigurable, enabling us to provide new environments and training opportunities on a regular basis.

Take a look at our Scenario Based Training Courses to see what can be done in our streetscape.

# CQT Indoor Shooting Range

CQT Michigan features a 14 lane, 28 yard, full tactical indoor range with the latest generation action target containment trap system. All lanes are rifle rated up to .50BMG.

## Shooting Booths

CQT's range is equipped with Mancom "Competition Series" booths. These are designed to provide privacy and safety for shooters on the firing line. The booth frames are constructed of rectangular steel tubing around a steel protection plate with clear ballistic glass panels and swing-out barriers for advanced shooting techniques and training.

## Ventilation System

The Air ventilation system at CQT is state of the art and meets or exceeds EPA standards for indoor shooting facilities, eliminating the smoky shooting range odor normally associated with indoor shooting.

## Targeting System

CQT's live fire tactical range uses Mancom Touch Plus™ Target Systems. This allows the shooter, using touch screen technology, to control the target retrieval / running-man / and static turning target. Shooters can choose from a number of programmed scenarios or CQT's Range Officer can assist each shooter in target positions from a remote control panel.

# Simulator

CQT offers both the V-Range V-100™ Simulator and VirTra V-300™ Simulator systems to improve trainees' real-world survival skills. The extensive library of realistic training scenarios is capable of supporting the entire use of force continuum from verbal skills, less than lethal options ( TASER®, beanbag, pepperball, OC) to lethal force. The system fully supports marksmanship and skill building from basic to advanced.

The V-300™ is the higher standard for decision-making simulation and tactical firearms training. Five screens and a 300-degree immersive training environment ensures that time in the simulator translates into real world survival skills. The system reconfigures to support 15 individual firing lanes.

The V-100™ marks a high standard for tactical training. For one-on-one contact training, the V-100™ offers quick decision-making simulations. With the ability to choose the training skills you need to work on, that time in the simulator translates into real world survival skills.

# CQT Combatives

The combatives area boasts a full-featured training floor including; heavy bags, Thai pads, focus mitts, training dummies, kick shields, headgear, private changing area, lockers and more.

# CQT Georgia Facility

## 700 Acre Georgia Training Facility

### Training Areas Include:

- Classrooms
- Numerous flat ranges
- Shoot house
- Numerous breaching ranges
- Confined space trainer
- Jungle/Clandestine drug lab
- Rappell tower
- Lodging for 60—120 students

# CQT Georgia Ranges

**CQT's capabilities range from 50m to 1,000m distances, to include:**

- 50m small arms weapons range
- 80m small arms weapons range
- 125m small arms weapons range
- 200m T&E/multi-weapon system range
- 1,000m multi-purpose range (Rocket/40mm capable)
- 100m 360 degree drive-in range
- Heavy breach site
- Urban breach village
- Ballistic breach site
- QUICKIE saw training site
- Thermal training site

# Urban Breach Village

Shoot House

Breach House

Ballistic Breach Site

Breach Village

Compound 1

## Village Layout

- 5 Breach houses
- 21 Heavy wood doors
- 12 Middle eastern doors
- Breach-able walls
- 4 Wall hangers

Compound 2

2 breach houses | 6 wood doors | 4 wall hangers

# Breach House

CQT provides structural apparatuses for mechanical, ballistic, thermal and explosive breaching, including breaching of brick, block, concrete and steel. Capabilities also include follow-up or secondary attack techniques; emergency assault breaching on steel doors and hard target obstructions, as well as precise mathematical calculation training for a variety of explosive effects. 40 person max per range.

- 4 mechanical breaching walls
- 26 breach-able door frames
- 5 explosive breaching wall hangers

# Ballistic Breach Site

CQT's Ballistic Breach Site features 3 Breaching Technologies Inc. (BTI) shotgun hinge doors and 3 mechanical breaching doors.

# QUICKIE Saw Training Site

- 50 ft. of chain link fence
- 2 stands that hold 8 rebar sections
- 2 expand metal stands

# Thermal Training Site

- 4 metal stands for 2' x 2' x 1/2" steel plates
- 2 stands that hold up to 10 rebar sections I-Beams of various sizes
- 2 stands that hold up to 2" thick steel plates

# Facilities

## CQT's facilities include:

- Multiple Classrooms
- 2,000 sq. ft. Fitness Center with MAT room (coming soon)
- 6,000 sq. ft. Shoot House
- SUB-T Site
- Confined Space Trainer
- Prison Pod
- Jungle/Clandestine Drug Lab
- Off-road Driving Course
- 2.5 mile Multi-Surface Driving Course (coming soon)

## Classrooms

- Multiple classrooms
- Audio/video display capabilities
- Onsite storage available

## Lodging/Cafeteria

- Multiple team housing rooms
- Laundry
- Cafeteria
- Lounge

## Private Small Team Housing & Classroom

- Classroom
- Housing

# Shoot House

The shoot house is 6,000 sq. ft. constructed of AR 500 ballistic material rated to support 5.56mm calibers and below. It has 9 rooms with 6 exterior entrances and 15 interior entrances to include mechanical and ballistic BTI doors. We offer a variety of target options to support room clearing, breaching, entry techniques, and target selection. Rooms can be fully furnished to replicate various tactical scenarios including classrooms, hotel rooms, and offices.

# Jungle/Clandestine Lab

# Offroad Track

- Off Road Track
- Snatch Pit
- Multiple Terrain
- Engineered Obstacles
- Snatch/Heist Recovery Pit
